Written Comments

- I really learned with this instructor, almost more than the professor.
- J was an amazing TA. He reiterated the concepts that professor Bourhim went over with us in class. He broke everything down and really helped a lot of us understand the math a whole lot better. Excellent job.
- Jianqing is FANTASTIC, he was even better than my professor. He taught things clearly and concisely in a way that EVERYONE could understand, including the people who, like myself, math is not their strong suit. I would have completely failed the class without his help. Give this man a raise!!!!
